

Stage 5 Industrial Technology - Timber industry

200-hour master teaching program | six core projects | v2.1

Course	200-hour elective	Delivery	2027 early implementation
Timetable	80 weeks 5 periods/fortnight	Total	200 x 60-minute periods
Balance	46 Site/theory 46 Project/folio 108 Practical	Syllabus	Industrial Technology 7-10 (2025)
Status	Local candidate faculty approval required	Authority	Six real project programs + 82-item family coverage

Master sequence

Project	Weeks	Master periods	Selected	Relationship
Breadboard	1-10	1-25	25	scheduled-core
Clock	11-25	26-63	38	scheduled-core
Timber Pen	26-27	64-68	5	scheduled-core
Tool Carry-all	28-42	69-105	37	scheduled-core
Mirror	43-60	106-150	45	scheduled-core
Bedside Table	61-80	151-200	50	scheduled-core

Official Stage 5 outcomes

INT5-SAF-01	applies risk management and safe work practices in industrial technology contexts	INT5-COM-01	communicates ideas and processes in industrial technology contexts	INT5-ENV-01	assesses the impact of industrial activities and practices on society and the environment
INT5-DES-01	selects and applies design, project management and technical skills in project production	INT5-USE-01	selects and justifies the use of materials, tools and equipment to undertake projects	INT5-EVL-01	evaluates the functional, aesthetic, economic and environmental qualities of products
INT5-INP-01	analyses and applies a range of industrial processes in production contexts	INT5-PRO-01	demonstrates practical skills in the production of projects	INT5-IND-01	investigates and explains a range of industry careers, enterprise opportunities and practices

Faculty to confirm: The supplied future master describes an approximate 18-20-week placement but also contains a 20-week duration field. Selecting the documented lower bound makes the six-project course exactly 80 weeks and 200 periods without changing the reusable 50-period Mirror program. Practical methods, assessment conditions, local risk controls, collaborative roles and cultural-source protocols also remain teacher/faculty controlled.

Periods 1-10 | Breadboard

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Breadboard: Weeks 1-2 website	Workshop readiness and the breadboard brief. Module 1 knowledge checks (questions 1-2). guided written response 1 Links: Theory 1 · Knowledge checks	The principles of risk management and implement risk-reduction procedures	Check the completed website responses and the named guided response. INT5-SAF-01
2	Project/folio	Breadboard: Weeks 1-2 folio	Recognising hazards and managing workshop risk. Module 1 knowledge checks (questions 3-4). guided written response 2. Links: Theory 2 · Knowledge checks · Open folio	The role of SafeWork NSW, regulations, standards and codes of practice in maintaining a safe workplace WHS documents, signage and rules used during design and production First-aid procedures and the steps to follow after a workshop incident Australian regulations, standards and codes of practice when designing and producing Risk management and risk-reduction procedures	Check the folio evidence, decision or reflection, and the recorded next step. INT5-SAF-01, INT5-DES-01, INT5-EVL-01, INT5-ENV-01
3	Practical	Breadboard: Weeks 1-2 site + practical	First 20 min: Marking and measuring for accuracy. Module 1 knowledge checks (questions 5-6). Then approved stage. Links: Theory 3 · Knowledge checks	Accurate timber marking-out tools, processes and equipment	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
4	Practical	Breadboard: Weeks 1-2 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
5	Practical	Breadboard: Weeks 1-2 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
6	Site/theory	Breadboard: Weeks 3-4 website	Grain direction and planning a board layout. Module 2 knowledge checks (questions 1-2). guided written response 1 Links: Theory 1 · Knowledge checks	Accurate measuring and marking-out for timber projects	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
7	Project/folio	Breadboard: Weeks 3-4 folio	Planning accurate biscuit joint positions. Module 2 knowledge checks (questions 3-4). guided written response 2. Links: Theory 2 · Knowledge checks · Open folio	Board-widening techniques including butt, tongue-and-groove, feather, dowel and biscuit joints Accurate measuring and marking-out for timber projects	Check the folio evidence, decision or reflection, and the recorded next step. INT5-PRO-01, INT5-INP-01, INT5-USE-01
8	Practical	Breadboard: Weeks 3-4 site + practical	First 20 min: Shaping timber with control. Module 2 knowledge checks (questions 5-6). Then approved stage; check plan, setup and one quality point. Links: Theory 3 · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
9	Practical	Breadboard: Weeks 3-4 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
10	Practical	Breadboard: Weeks 3-4 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01

Periods 11-20 | Breadboard

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
11	Site/theory	Breadboard: Weeks 5-6 website	Dry assembly before glue-up. Module 3 knowledge checks (questions 1-2). guided written response 1 Links: Theory 1 · Knowledge checks	Assemble parts and components using fixings, adhesives or clamps to make timber products	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
12	Project/folio	Breadboard: Weeks 5-6 folio	A careful glue-up and clamping plan. Module 3 knowledge checks (questions 3-4). guided written response 2. Links: Theory 2 · Knowledge checks · Open folio	Accurate measuring and marking-out for timber projects	Check the folio evidence, decision or reflection, and the recorded next step. INT5-PRO-01, INT5-INP-01, INT5-USE-01
13	Practical	Breadboard: Weeks 5-6 site + practical	First 20 min: Safe preparation for routed profiles. Module 3 knowledge checks (questions 5-6). Then approved stage. Links: Theory 3 · Knowledge checks	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
14	Practical	Breadboard: Weeks 5-6 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
15	Practical	Breadboard: Weeks 5-6 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
16	Site/theory	Breadboard: Weeks 7-8 website	Sanding for a consistent surface. Module 4 knowledge checks (questions 1-2). guided written response 1 Links: Theory 1 · Knowledge checks	Hand tools, power tools, machinery, chemicals and abrasives to prepare timber surfaces for the application of finishes	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
17	Project/folio	Breadboard: Weeks 7-8 folio	Preparing to apply an oil finish. Module 4 knowledge checks (questions 3-4). guided written response 2. Folio: link to the project; set the next step. Links: Theory 2 · Knowledge checks · Open folio	Prepare timber surfaces for finishes	Check the folio evidence, decision or reflection, and the recorded next step. INT5-PRO-01, INT5-INP-01, INT5-USE-01
18	Practical	Breadboard: Weeks 7-8 site + practical	First 20 min: Responsible material use, finishing waste and sustainability. Module 4 knowledge checks (questions 5-6). Links: Theory 3 · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
19	Practical	Breadboard: Weeks 7-8 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
20	Practical	Breadboard: Weeks 7-8 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01

Periods 21-30 | Breadboard / Clock

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
21	Site/theory	Breadboard: Weeks 9-10 website	Evaluating the finished bread board against the brief. Module 5 knowledge checks (questions 1-2). guided written response 1 Links: Theory 1 · Knowledge checks	The effectiveness of design on the quality, function and aesthetics of finished products	Check the completed website responses and the named guided response. INT5-DES-01, INT5-EVL-01, INT5-ENV-01
22	Project/folio	Breadboard: Weeks 9-10 folio	Selecting and presenting authentic folio evidence. Module 5 knowledge checks (questions 3-4). guided written response 2. Links: Theory 2 · Knowledge checks · Open folio	Written texts to document, reflect on and evaluate project development, production and management processes	Check the folio evidence, decision or reflection, and the recorded next step. INT5-COM-01
23	Practical	Breadboard: Weeks 9-10 site + practical	First 20 min: Final workshop care, maintenance and handover. Module 5 knowledge checks (questions 5-6). guided written response 3. Links: Theory 3 · Knowledge checks	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
24	Practical	Breadboard: Weeks 9-10 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
25	Practical	Breadboard: Weeks 9-10 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
26	Site/theory	Clock: Weeks 1-2 website	Understanding the Clock project brief and success criteria. Weeks 1-2 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Factors that shape a project design and its specifications	Check the completed website responses and the named guided response. INT5-DES-01, INT5-EVL-01, INT5-ENV-01
27	Project/folio	Clock: Weeks 1-2 folio	Reading the Clock working drawing without scaling. Weeks 1-2 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Accurate timber marking-out tools, processes and equipment	Check the folio evidence, decision or reflection, and the recorded next step. INT5-PRO-01, INT5-INP-01, INT5-USE-01
28	Practical	Clock: Weeks 1-2 site + practical	First 20 min: Managing workshop hazards and risks for the Clock. Weeks 1-2 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	The principles of risk management and implement risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
29	Practical	Clock: Weeks 1-2 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
30	Site/theory	Clock: Weeks 3-4 website	Timber grain, structure and defects in Clock components. Weeks 3-4 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Quality checks to assess timbers and components for defects before, during and after production Timber properties and justified material selection	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01, INT5-ENV-01

Periods 31-40 | Clock

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
31	Project/folio	Clock: Weeks 3-4 folio	Writing a Work Method Statement for the Clock. Weeks 3-4 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Written texts to document, reflect on and evaluate project development, production and management processes	Check the folio evidence, decision or reflection, and the recorded next step. INT5-COM-01
32	Practical	Clock: Weeks 3-4 site + practical	First 20 min: Cutting lists, material calculations and cost planning. Weeks 3-4 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Materials lists and calculate quantities and costs when making projects Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-DES-01, INT5-INP-01, INT5-PRO-01, INT5-USE-01
33	Practical	Clock: Weeks 3-4 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
34	Site/theory	Clock: Weeks 5-6 website	Planning and drilling the Clock face opening. Weeks 5-6 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Safe equipment setup using guards, SOPs, SDSs, workholding, correct settings and dust control Accurate measuring and marking-out for timber projects	Check the completed website responses and the named guided response. INT5-SAF-01, INT5-USE-01, INT5-PRO-01, INT5-INP-01
35	Project/folio	Clock: Weeks 5-6 folio	Building an accurate drill press Safe Operating Procedure. Weeks 5-6 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Risk management and risk-reduction procedures	Check the folio evidence, decision or reflection, and the recorded next step. INT5-SAF-01
36	Practical	Clock: Weeks 5-6 site + practical	First 20 min: Workshop housekeeping and care of Clock tools. Weeks 5-6 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Hand tools and equipment, including cleaning, lubricating or replacing consumables, such as blades, bits and abrasives Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01, INT5-USE-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
37	Practical	Clock: Weeks 5-6 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
38	Site/theory	Clock: Weeks 7-8 website	Rebate joints in the Clock carcass. Weeks 7-8 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Carcass, framing and box joints including rebates, housings, dovetails, bridles and mortice-and-tenon	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
39	Project/folio	Clock: Weeks 7-8 folio	Chamfered edges: controlled shaping and design effect. Weeks 7-8 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Design factors and project specifications	Check the folio evidence, decision or reflection, and the recorded next step. INT5-DES-01, INT5-EVL-01, INT5-ENV-01
40	Practical	Clock: Weeks 7-8 site + practical	First 20 min: Adhesive assembly, squareness and clamping. Weeks 7-8 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01

Periods 41-50 | Clock

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
41	Practical	Clock: Weeks 7-8 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
42	Site/theory	Clock: Weeks 9-10 website	The hidden drawer: accuracy, clearance and fit. Weeks 9-10 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Quality checks for timber and components	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
43	Project/folio	Clock: Weeks 9-10 folio	Responsible material use and off-cut selection. Weeks 9-10 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	How recycled or repurposed materials are used in a timber-based project Timber properties and justified material selection	Check the folio evidence, decision or reflection, and the recorded next step. INT5-USE-01, INT5-ENV-01
44	Practical	Clock: Weeks 9-10 site + practical	First 20 min: Testing drawer fit and diagnosing faults. Weeks 9-10 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
45	Site/theory	Clock: Weeks 11-12 website	Timber moisture, seasoning and dimensional stability. Weeks 11-12 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Accurate measuring and marking-out for timber projects	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
46	Project/folio	Clock: Weeks 11-12 folio	Selecting timber for function, appearance and responsible use. Weeks 11-12 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Comparing hardwood and softwood properties to justify material selection	Check the folio evidence, decision or reflection, and the recorded next step. INT5-USE-01, INT5-ENV-01
47	Practical	Clock: Weeks 11-12 site + practical	First 20 min: Sanding for a consistent oil-ready surface. Weeks 11-12 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
48	Practical	Clock: Weeks 11-12 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
49	Site/theory	Clock: Weeks 13-14 website	Planning the three-coat oil finish. Weeks 13-14 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Accurate measuring and marking-out for timber projects	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
50	Project/folio	Clock: Weeks 13-14 folio	Oil finish safety, application and between-coat quality. Weeks 13-14 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Risk management and risk-reduction procedures	Check the folio evidence, decision or reflection, and the recorded next step. INT5-SAF-01

Periods 51-60 | Clock

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
51	Practical	Clock: Weeks 13-14 site + practical	First 20 min: Accurate fit-up of the battery clock mechanism. Weeks 13-14 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
52	Practical	Clock: Weeks 13-14 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
53	Site/theory	Clock: Weeks 15-16 website	Applying design principles to the Clock. Weeks 15-16 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Design factors and project specifications	Check the completed website responses and the named guided response. INT5-DES-01, INT5-EVL-01, INT5-ENV-01
54	Project/folio	Clock: Weeks 15-16 folio	Technical sketches, orthographic views and clear communication. Weeks 15-16 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	The importance of graphical literacy for communication across industries Accurate measuring and marking-out for timber projects	Check the folio evidence, decision or reflection, and the recorded next step. INT5-COM-01, INT5-PRO-01, INT5-INP-01, INT5-USE-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
55	Practical	Clock: Weeks 15-16 site + practical	First 20 min: Current and emerging timber technologies connected to the Clock. Weeks 15-16 knowledge checks (questions 9-12). Links: Theory 3 · Knowledge checks	Sustainable materials, technologies and practices when designing projects Digital technologies to develop and communicate ideas The environmental and societal impact of resources used in the development and production of timber projects Advanced manufacturing techniques to assist in the production of projects Digital design tools to develop timber projects Traditional and digital technologies to create components and detail surfaces for timber products Processes, techniques and equipment used in industry to those found in the classroom Work and enterprise skills required in the timber industry Ethical, cultural and sustainability practices used in the timber industry New and emerging technologies and their influence on the timber industry The effects of the timber industry on society and the environment How timber industry practices evolve in response to changes in technology, society and the environment Trade and career opportunities across the timber industry The impact of new and emerging technologies on careers and professions in the timber industry Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-DES-01, INT5-EVL-01, INT5-ENV-01, INT5-COM-01, INT5-USE-01, INT5-PRO-01, INT5-INP-01, INT5-IND-01
56	Practical	Clock: Weeks 15-16 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
57	Site/theory	Clock: Weeks 17-18 website	Building an authentic Clock project folio. Weeks 17-18 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Document, reflect on and evaluate project development	Check the completed website responses and the named guided response. INT5-COM-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
58	Project/folio	Clock: Weeks 17-18 folio	Photographing and captioning key Clock construction stages. Weeks 17-18 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Subject-specific terminology to communicate industrial technology concepts Safe collection and storage of project data Document, reflect on and evaluate project development	Check the folio evidence, decision or reflection, and the recorded next step. INT5-COM-01
59	Practical	Clock: Weeks 17-18 site + practical	First 20 min: Using PMI to evaluate the finished Clock. Weeks 17-18 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
60	Site/theory	Clock: Weeks 19-20 website	Final quality assurance for the completed Clock. Weeks 19-20 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	A production quality system using testing, quality assurance and quality control Quality checks for timber and components	Check the completed website responses and the named guided response. INT5-DES-01, INT5-INP-01, INT5-PRO-01, INT5-USE-01

Periods 61-70 | Clock / Timber Pen / Tool Carry-all

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
61	Project/folio	Clock: Weeks 19-20 folio	Revising Clock theory and using feedback. Weeks 19-20 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Document, reflect on and evaluate project development	Check the folio evidence, decision or reflection, and the recorded next step. INT5-COM-01
62	Practical	Clock: Weeks 19-20 site + practical	First 20 min: Submission, reflection and transferable workshop skills. Weeks 19-20 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Hand tools, power tools, machinery, chemicals and abrasives to prepare timber surfaces for the application of finishes Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01, INT5-SAF-01
63	Practical	Clock: Weeks 19-20 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
64	Site/theory	Timber Pen: Weeks 1-2 website	Understanding the Pen project brief and success criteria. Weeks 1-2 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Factors that shape a project design and its specifications	Check the completed website responses and the named guided response. INT5-DES-01, INT5-EVL-01, INT5-ENV-01
65	Project/folio	Timber Pen: Weeks 1-2 folio	Reading the approved Pen Making process resource and kit instructions. Weeks 1-2 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Selecting and recording the materials, equipment and processes used in a project Safe wood-turning setup and practice	Check the folio evidence, decision or reflection, and the recorded next step. INT5-DES-01, INT5-INP-01, INT5-PRO-01, INT5-USE-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
66	Practical	Timber Pen: Weeks 1-2 site + practical	First 20 min: Managing wood-lathe hazards, risks and teacher approval. Weeks 1-2 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Preparing timber and setting up a lathe for between-centres, chuck and faceplate turning Safe woodturning checks for timber, mounting, clearance and sanding Appropriate tools and processes to turn timbers, such as cutting, scraping and sanding Hand tools, power tools, machinery, chemicals and abrasives to prepare timber surfaces for the application of finishes Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01, INT5-SAF-01
67	Practical	Timber Pen: Weeks 1-2 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
68	Practical	Timber Pen: Weeks 1-2 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
69	Site/theory	Tool Carry-all: Weeks 1-2 website	Understanding the Carry-All brief and success criteria. Weeks 1-2 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	The principles of risk management and implement risk-reduction procedures Factors that shape a project design and its specifications	Check the completed website responses and the named guided response. INT5-SAF-01, INT5-DES-01, INT5-EVL-01, INT5-ENV-01
70	Project/folio	Tool Carry-all: Weeks 1-2 folio	Reading the Carry-All working drawing without scaling. Weeks 1-2 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Accurate timber marking-out tools, processes and equipment	Check the folio evidence, decision or reflection, and the recorded next step. INT5-PRO-01, INT5-INP-01, INT5-USE-01

Periods 71-80 | Tool Carry-all

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
71	Practical	Tool Carry-all: Weeks 1-2 site + practical	First 20 min: Managing Carry-All hazards, risks and the SWMS. Weeks 1-2 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
72	Practical	Tool Carry-all: Weeks 1-2 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
73	Site/theory	Tool Carry-all: Weeks 3-4 website	Selecting pine and plywood for the Carry-All. Weeks 3-4 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Document, reflect on and evaluate project development	Check the completed website responses and the named guided response. INT5-COM-01
74	Project/folio	Tool Carry-all: Weeks 3-4 folio	Learning respectfully from Aboriginal and Torres Strait Islander timber technologies. Weeks 3-4 knowledge checks (questions 5-8). Links: Theory 2 · Knowledge checks · Open folio	Why Indigenous Cultural and Intellectual Property matters in relevant projects First Nations materials, technologies and sustainable practices that inform design The role of Country in the provision and management of timber materials for production Tools used by Aboriginal and/or Torres Strait Islander Peoples to manipulate timber Ethical protocols when making timber projects	Check the folio evidence, decision or reflection, and the recorded next step. INT5-DES-01, INT5-EVL-01, INT5-ENV-01, INT5-USE-01, INT5-SAF-01, INT5-PRO-01, INT5-INP-01
75	Practical	Tool Carry-all: Weeks 3-4 site + practical	First 20 min: Using timber responsibly and reducing project waste. Weeks 3-4 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
76	Practical	Tool Carry-all: Weeks 3-4 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
77	Site/theory	Tool Carry-all: Weeks 5-6 website	Comparing box-pin joints as alternative knowledge. Weeks 5-6 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Appropriate carcass, framing and box joints	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
78	Project/folio	Tool Carry-all: Weeks 5-6 folio	Comparing dovetail joints as alternative knowledge. Weeks 5-6 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Appropriate carcass, framing and box joints	Check the folio evidence, decision or reflection, and the recorded next step. INT5-PRO-01, INT5-INP-01, INT5-USE-01
79	Practical	Tool Carry-all: Weeks 5-6 site + practical	First 20 min: Applying the assessed rebate-and-housing construction. Weeks 5-6 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
80	Site/theory	Tool Carry-all: Weeks 7-8 website	Establishing reference faces and marking accurately. Weeks 7-8 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Accurate measuring and marking-out for timber projects	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01

Periods 81-90 | Tool Carry-all

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
81	Project/folio	Tool Carry-all: Weeks 7-8 folio	Controlling approved cuts for rebate-and-housing features. Weeks 7-8 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Appropriate carcass, framing and box joints	Check the folio evidence, decision or reflection, and the recorded next step. INT5-PRO-01, INT5-INP-01, INT5-USE-01
82	Practical	Tool Carry-all: Weeks 7-8 site + practical	First 20 min: Refining required rebates and housings. Weeks 7-8 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
83	Practical	Tool Carry-all: Weeks 7-8 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
84	Site/theory	Tool Carry-all: Weeks 9-10 website	Forming the base rebate accurately. Weeks 9-10 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Appropriate carcass, framing and box joints	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
85	Project/folio	Tool Carry-all: Weeks 9-10 folio	Locating dividers and the handle with housing joints. Weeks 9-10 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Appropriate carcass, framing and box joints	Check the folio evidence, decision or reflection, and the recorded next step. INT5-PRO-01, INT5-INP-01, INT5-USE-01
86	Practical	Tool Carry-all: Weeks 9-10 site + practical	First 20 min: Dry fitting the Carry-All structure. Weeks 9-10 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
87	Site/theory	Tool Carry-all: Weeks 11-12 website	Designing a practical Carry-All handle. Weeks 11-12 knowledge checks (questions 1-4). guided written response 1-2 Links: Theory 1 · Knowledge checks	Design factors and project specifications	Check the completed website responses and the named guided response. INT5-DES-01, INT5-EVL-01, INT5-ENV-01
88	Project/folio	Tool Carry-all: Weeks 11-12 folio	Communicating the handle through orthogonal drawing and a template. Weeks 11-12 knowledge checks (questions 5-8). guided written response 3. Links: Theory 2 · Knowledge checks · Open folio	Graphical communication during project development, from freehand sketches to CAD Written texts to document, reflect on and evaluate project development, production and management processes Accurate measuring and marking-out for timber projects	Check the folio evidence, decision or reflection, and the recorded next step. INT5-COM-01, INT5-PRO-01, INT5-INP-01, INT5-USE-01
89	Practical	Tool Carry-all: Weeks 11-12 site + practical	First 20 min: Shaping and refining the Carry-All handle safely. Weeks 11-12 knowledge checks (questions 9-12). guided written response 4. Links: Theory 3 · Knowledge checks	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
143	Project/folio	Mirror: Weeks 17-18 folio	Finishing Fitting Evaluation (questions 3-4). Folio: link to the project; set the next step. Links: Evaluation · Knowledge checks · Open folio	Prepare timber surfaces for finishes	Check the folio evidence, decision or reflection, and the recorded next step. INT5-PRO-01, INT5-INP-01, INT5-USE-01
144	Practical	Mirror: Weeks 17-18 site + practical	First 20 min: Finishing Fitting Evaluation (questions 5-7). Then approved stage; check plan, setup and one quality point. Links: Evaluation · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
145	Practical	Mirror: Weeks 17-18 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
146	Practical	Mirror: Weeks 17-18 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
147	Site/theory	Mirror: Weeks 19-20 website	Support Short Answer (question 1) Links: Week 19 theory · Week 19 quiz	Written texts to document, reflect on and evaluate project development, production and management processes	Check the completed website responses and the named guided response. INT5-COM-01
148	Project/folio	Mirror: Weeks 19-20 folio	Support Short Answer (question 2). Folio: link to the project; set the next step. Links: Week 19 theory · Week 19 quiz · Open folio	Written texts to document, reflect on and evaluate project development, production and management processes	Check the folio evidence, decision or reflection, and the recorded next step. INT5-COM-01
149	Practical	Mirror: Weeks 19-20 site + practical	First 20 min: Support Short Answer (questions 3-4). Then approved stage; check plan, setup and one quality point. Links: Week 19 theory · Week 19 quiz	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
150	Practical	Mirror: Weeks 19-20 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01

Periods 151-160 | Bedside Table

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
151	Site/theory	Bedside Table: Weeks 1-2 website	Understanding the project brief and success criteria; Reading the project plans accurately. Weeks 1-2 knowledge checks (questions 1-4). Links: Brief · Plans · Knowledge checks	Accurate measuring and marking-out for timber projects	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
152	Project/folio	Bedside Table: Weeks 1-2 folio	How the bedside table carries load and stays stable; Workshop safety and risk controls. Weeks 1-2 knowledge checks (questions 5-8). Links: Structure · WHS · Knowledge checks · Open folio	The principles of risk management and implement risk-reduction procedures Safe workshop practices and procedures when using materials, tools and equipment in timber projects Personal protective equipment (PPE) when working with tools, materials and machines	Check the folio evidence, decision or reflection, and the recorded next step. INT5-SAF-01, INT5-PRO-01, INT5-INP-01, INT5-USE-01
153	Practical	Bedside Table: Weeks 1-2 site + practical	First 20 min: Design criteria, sketches and approved choices; Datums, face side, face edge and matched components. Links: Design · Datums · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
154	Practical	Bedside Table: Weeks 1-2 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
155	Practical	Bedside Table: Weeks 1-2 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
156	Site/theory	Bedside Table: Weeks 3-4 website	Working drawings, dimensions and component orientation; From working drawing to cutting list. Weeks 3-4 knowledge checks (questions 1-4). Links: Drawings · Cutting list · Knowledge checks	Accurate measuring and marking-out for timber projects	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
157	Project/folio	Bedside Table: Weeks 3-4 folio	Timber selection, grain direction and defects; Preparing timber with the FEWTEL sequence. Weeks 3-4 knowledge checks (questions 5-8). Links: Selection · FEWTEL · Knowledge checks · Open folio	Appropriate timbers for the construction of timber products Timber using appropriate hand tools and machines	Check the folio evidence, decision or reflection, and the recorded next step. INT5-PRO-01, INT5-INP-01, INT5-USE-01
158	Practical	Bedside Table: Weeks 3-4 site + practical	First 20 min: Matching visible components and grain orientation; Labelling, checking and hold points before joinery. Links: Matching · Quality gates · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
159	Practical	Bedside Table: Weeks 3-4 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
160	Practical	Bedside Table: Weeks 3-4 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01

Periods 161-170 | Bedside Table

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
161	Site/theory	Bedside Table: Weeks 5-6 website	Frame components and the structural load path; How a mortise-and-tenon joint works. Weeks 5-6 knowledge checks (questions 1-4). Links: Frame · Joint · Knowledge checks	Carcase, framing and box joints including rebates, housings, dovetails, bridles and mortice-and-tenon	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
162	Project/folio	Bedside Table: Weeks 5-6 folio	Hollow-chisel mortiser: set-up, control and test pieces; Marking and shaping matched tapered legs. Weeks 5-6 knowledge checks (questions 5-8). Links: Mortiser · Tapers · Knowledge checks · Open folio	Test and evaluate the suitability of materials and the effectiveness of tools, equipment and processes Drawings, jigs or templates, relevant to the project, in the manufacture of components and assemblies Accurate measuring and marking-out for timber projects	Check the folio evidence, decision or reflection, and the recorded next step. INT5-DES-01, INT5-EVL-01, INT5-ENV-01, INT5-PRO-01, INT5-INP-01, INT5-USE-01
163	Practical	Bedside Table: Weeks 5-6 site + practical	First 20 min: Shaping the broad curved front apron; Controlled cutting, joint refinement and quality gates. Links: Apron · Controlled · Knowledge checks	Appropriate hand tools, power tools and machines for cutting, shaping and detailing timber Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
164	Practical	Bedside Table: Weeks 5-6 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
165	Practical	Bedside Table: Weeks 5-6 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
166	Site/theory	Bedside Table: Weeks 7-8 website	Dry fitting is a diagnostic test; Assembly order is a design decision. Weeks 7-8 knowledge checks (questions 1-4). guided written response 1-2 Links: Dry fit · Assembly order · Knowledge checks	Factors that shape a project design and its specifications	Check the completed website responses and the named guided response. INT5-DES-01, INT5-EVL-01, INT5-ENV-01
167	Project/folio	Bedside Table: Weeks 7-8 folio	Adhesive selection and conditions for a strong bond; Clamping pressure, pads and squareness. Weeks 7-8 knowledge checks (questions 5-8). Links: Adhesives · Clamping · Knowledge checks · Open folio	Selecting and recording the materials, equipment and processes used in a project Project management strategies when developing projects Assemble parts and components using fixings, adhesives or clamps to make timber products	Check the folio evidence, decision or reflection, and the recorded next step. INT5-DES-01, INT5-INP-01, INT5-PRO-01, INT5-USE-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
168	Practical	Bedside Table: Weeks 7-8 site + practical	First 20 min: Reading diagonals, twist and racking; Glue clean-up, curing and hold points. Weeks 7-8 knowledge checks (questions 9-12). Links: Diagonals · Hold points · Knowledge checks	Quality checks to assess timbers and components for defects before, during and after production Accurate timber marking-out tools, processes and equipment Skills and processes to make quality projects Techniques to ensure the precision and quality of components	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
169	Practical	Bedside Table: Weeks 7-8 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
170	Practical	Bedside Table: Weeks 7-8 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01

Periods 171-180 | Bedside Table

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
171	Site/theory	Bedside Table: Weeks 9-10 website	Follow the approved storage design; Clearances, reveals and fit. Weeks 9-10 knowledge checks (questions 1-4). guided written response 1-2 Links: Approved storage · Clearances · Knowledge checks	Design factors and project specifications	Check the completed website responses and the named guided response. INT5-DES-01, INT5-EVL-01, INT5-ENV-01
172	Project/folio	Bedside Table: Weeks 9-10 folio	Constructing a square drawer or approved component; Aligning the visible front or approved face. Weeks 9-10 knowledge checks (questions 5-8). Links: Drawer · Front · Knowledge checks · Open folio	Written texts to document, reflect on and evaluate project development, production and management processes	Check the folio evidence, decision or reflection, and the recorded next step. INT5-COM-01
173	Practical	Bedside Table: Weeks 9-10 site + practical	First 20 min: Pilot holes, hardware alignment and controlled adjustment; Functional testing and fault diagnosis. Links: Hardware · Testing · Knowledge checks	A range of hardware components and their function for application in timber projects Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-USE-01, INT5-ENV-01, INT5-PRO-01, INT5-INP-01
174	Practical	Bedside Table: Weeks 9-10 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
175	Practical	Bedside Table: Weeks 9-10 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
176	Site/theory	Bedside Table: Weeks 11-12 website	Aligning the thick top accurately; Why solid timber moves across the grain. Weeks 11-12 knowledge checks (questions 1-4). guided written response 1-2 Links: Top alignment · Movement · Knowledge checks	Techniques to ensure the precision and quality of components	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
177	Project/folio	Bedside Table: Weeks 11-12 folio	Using the approved top-fixing method; Final hardware checks. Weeks 11-12 knowledge checks (questions 5-8). guided written response 3. Links: Fixing · Hardware · Knowledge checks · Open folio	Document, reflect on and evaluate project development	Check the folio evidence, decision or reflection, and the recorded next step. INT5-COM-01
178	Practical	Bedside Table: Weeks 11-12 site + practical	First 20 min: Diagnosing a top that rocks, cups or sits unevenly; Final assembly tolerances and quality gates. Links: Stability · Tolerances · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
179	Practical	Bedside Table: Weeks 11-12 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
180	Practical	Bedside Table: Weeks 11-12 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01

Periods 181-190 | Bedside Table

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
181	Site/theory	Bedside Table: Weeks 13-14 website	Inspect before sanding; Abrasive grit, scratch pattern and grain direction. Weeks 13-14 knowledge checks (questions 1-4). guided written response 1-2 Links: Inspect · Abrasives · Knowledge checks	Hand tools, power tools, machinery, chemicals and abrasives to prepare timber surfaces for the application of finishes	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
182	Project/folio	Bedside Table: Weeks 13-14 folio	Sanding tapered legs, curves and edges without changing shape; Defect repair and glue residue. Weeks 13-14 knowledge checks (questions 5-8). Links: Shaped · Repair · Knowledge checks · Open folio	Assembly using fixings, adhesives or clamps	Check the folio evidence, decision or reflection, and the recorded next step. INT5-PRO-01, INT5-INP-01, INT5-USE-01
183	Practical	Bedside Table: Weeks 13-14 site + practical	First 20 min: Final surface inspection with raking light and touch; Dust control, clean-up and pre-finish quality assurance. Links: Raking · Dust · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
184	Practical	Bedside Table: Weeks 13-14 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
185	Practical	Bedside Table: Weeks 13-14 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
186	Site/theory	Bedside Table: Weeks 15-16 website	Follow the approved finish system; Applying a timber finish evenly. Weeks 15-16 knowledge checks (questions 1-4). guided written response 1-2 Links: Selection · Application · Knowledge checks	Working environments for the production, finishing and assembly of timber products	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
187	Project/folio	Bedside Table: Weeks 15-16 folio	Drying, curing, handling and between-stage preparation; Chemical safety. Weeks 15-16 knowledge checks (questions 5-8). guided written response 3. Links: Drying · Chemical · Knowledge checks · Open folio	Risk management and risk-reduction procedures	Check the folio evidence, decision or reflection, and the recorded next step. INT5-SAF-01
188	Practical	Bedside Table: Weeks 15-16 site + practical	First 20 min: Using the label, SDS and hierarchy of controls; Sustainable practice and responsible waste handling. Links: SDS controls · Sustainability · Knowledge checks	Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
189	Practical	Bedside Table: Weeks 15-16 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
190	Practical	Bedside Table: Weeks 15-16 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01

Periods 191-200 | Bedside Table

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
191	Site/theory	Bedside Table: Weeks 17-18 website	Systematic final quality checks; From problem to cause, correction and result. Weeks 17-18 knowledge checks (questions 1-4). Links: Quality · Problem solving · Knowledge checks	Quality checks for timber and components	Check the completed website responses and the named guided response. INT5-PRO-01, INT5-INP-01, INT5-USE-01
192	Project/folio	Bedside Table: Weeks 17-18 folio	Collecting purposeful evidence; Writing captions that explain what the evidence proves. Weeks 17-18 knowledge checks (questions 5-8). Links: Evidence · Captions · Knowledge checks · Open folio	Document, reflect on and evaluate project development	Check the folio evidence, decision or reflection, and the recorded next step. INT5-COM-01
193	Practical	Bedside Table: Weeks 17-18 site + practical	First 20 min: Evaluation is a judgement supported by evidence; Selecting a concise portfolio evidence set. Links: Evaluation · Open folio · Knowledge checks	The impact of manufacturing processes on the quality of finished timber products Accurate measuring and marking-out for timber projects	Observe approved setup, process, skill, quality and clean-down. INT5-PRO-01, INT5-INP-01, INT5-USE-01
194	Practical	Bedside Table: Weeks 17-18 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
195	Practical	Bedside Table: Weeks 17-18 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
196	Site/theory	Bedside Table: Weeks 19-20 website	Final presentation and systematic inspection; Correct the cause, not only the symptom. Weeks 19-20 knowledge checks (questions 1-4). Links: Inspection · Diagnosis · Knowledge checks	Document, reflect on and evaluate project development	Check the completed website responses and the named guided response. INT5-COM-01

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
197	Project/folio	Bedside Table: Weeks 19-20 folio	Care, maintenance and safe handling; Final submission as quality assurance. Weeks 19-20 knowledge checks (questions 5-8). guided written response 3. Links: Care · Submission · Knowledge checks · Open folio	Digital literacy and information management skills when working with digital systems and in online environments Risk management and risk-reduction procedures	Check the folio evidence, decision or reflection, and the recorded next step. INT5-COM-01, INT5-SAF-01
198	Practical	Bedside Table: Weeks 19-20 site + practical	First 20 min: Reflection and transferable improvement; Workshop reset and responsible handover. Weeks 19-20 knowledge checks (questions 9-12). Links: Reflection · Reset · Knowledge checks	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
199	Practical	Bedside Table: Weeks 19-20 production	Continue approved stage; follow plan/SOP; check fit, accuracy or surface.	Risk management and risk-reduction procedures	Observe approved setup, process, skill, quality and clean-down. INT5-SAF-01
200	Practical	Bedside Table: Weeks 19-20 evidence	Finish current stage; photograph a checkpoint; record any problem/response; clean down.	Prepare timber surfaces for finishes	Check the project photograph, quality note and problem-response record. INT5-PRO-01, INT5-INP-01, INT5-USE-01
